Ryan, thanks for reaching out. I had intended to get back to you after our call with the link to the public comment page for the proposed action on the Pine View Estates drinking water matter, and only just got it today: <http://www.epa.gov/region9/enforcement/pubnotices/pubnotice-pineview.html>

And thanks for the information about the BIA meeting – I will pass that along to Rich Campbell and Aaron Setran. We appreciate you trying to keep everyone in the loop.

I am also adding to this e-mail a cc: to Brent Maier, who handles Congressional Affairs for our EPA Region. He is back in the office and please don't hesitate to contact him with any further inquiries. I have talked to Brent about our phone call last week, and let him know that you would like to be kept updated as progress is made at Pine View Estates. Brent can be reached at (415) 947-4256.

Bill,

I didn't get an email from you after our call, so I wanted to follow up. My contact info is below.

Also, I wanted to make sure you were aware of the info in the email below. The BIA will be discussing the Pineview Estates sewer issue with their Regional office next Wednesday. I hope they have invited you all to at least ensure that everyone is on the same page.

Ryan

There is a conference call with the Region folks set up for June 19. A couple of critical staff were not able to participate this week due to other commitments. I will be in touch with you directly after the call.

Gerry,

I spoke with some of the folks in the San Francisco EPA office this morning. It sounds like they have been working closely on this issue with the BIA Regional Office and environmental team. I was hoping that any discussions you would have this week would include them so they can be aware of any progress that is made.

It is your call. If you would like contact info for the guys over at the EPA, I will be happy to provide it to you.

Take care,

**Ryan Cherry**
